Professor Levy Siaminwe
Chairperson of the Board
Higher Education Authority

With a deep sense of responsibility and pride, I present the Higher Education Authority's (HEA) Annual Report for the year ended 31 December 2024, on behalf of the Board of the Authority.

The year under review was characterised by heightened expectations for the higher education sector, increased regulatory complexity, and persistent resource constraints. In this challenging environment, the Board remained steadfast in providing strategic direction, policy oversight and governance leadership to ensure that the Authority effectively fulfilled its mandate.

Throughout 2024, the Board exercised its oversight role through regular meetings, committee engagements, and structured performance reviews, focusing on strengthening regulatory effectiveness, safeguarding academic standards, and reinforcing institutional accountability across Higher Education Institutions (HEIs). Particular attention was devoted to the Authority's performance against its 2022–2026 Strategic Plan, financial stewardship, risk management and the integrity of quality assurance systems.

The Board notes with satisfaction the Authority's progress in advancing key regulatory instruments, including the Zambia Standards and Guidelines for Quality Assurance (ZSG-QA), the Quality Assurance Handbook, and the University Assessment Tool. These instruments significantly strengthen the national quality assurance architecture and provide clearer guidance to institutions, evaluators, and stakeholders. The sustained improvement in programme accreditation outputs during the year demonstrates the Authority's commitment to protecting learners while promoting relevance and excellence in higher education provision.

Simultaneously, the Board acknowledges the persistent challenges that constrained optimal performance, particularly limited financial resources, staffing gaps, deficiencies in Information and Communication (ICT) infrastructure, and an aging transport fleet. These constraints affected the scale and frequency of institutional audits and inspections, underscoring the urgent need for enhanced resource mobilisation and strengthened institutional capacity.

The Board commends the Management and staff of the Higher Education Authority for their resilience, professionalism, and dedication in sustaining regulatory operations under difficult circumstances. Their commitment ensured continuity of service delivery and preserved the credibility of the Authority as Zambia's higher education regulator.

The Board is grateful to the Ministry of Education for its continued policy guidance and support extends its appreciation and to Higher Education Institutions (HEIs) for their cooperation and engagement with the Authority's quality assurance processes.

As we look ahead to 2025, the Board will continue to prioritise strategic oversight aimed at enhancing regulatory reach, improving financial sustainability, modernising ICT systems, and strengthening institutional capacity. The Authority remains central to Zambia's national development agenda and the Board reaffirms its commitment to ensuring that higher education serves as a credible driver of human capital development and socio-economic transformation.

I, therefore, have the pleasure of presenting the Higher Education Authority Annual Report for 2024.

Professor Levy Siaminwe
Chairperson of the Board
Higher Education Authority

MESSAGE FROM THE DIRECTOR-GENERAL

Professor Kazhila C. Chinsembu
Director-General
Higher Education Authority

It is my honour to present the Higher Education Authority (HEA) Annual Report for 2024, a year marked by significant institutional progress, renewed regulatory commitment, and strengthened national focus on quality in higher education. As Zambia advances its aspirations for a knowledge-driven economy, the Authority remained steadfast in executing its statutory mandate to regulate and assure the quality of higher education provision across the country.

Having assumed office as Director-General on 22 April 2024, I am privileged to lead an institution whose mandate is central to Zambia's human capital development and national transformation agenda. Upon taking office, I emphasised the need for collective effort, institutional accountability, and a commitment to leaving lasting legacies that advance the integrity and credibility of the higher education sector.

The year 2024 was characterised by both remarkable achievements and notable constraints. HEA sustained operational momentum across its core regulatory functions – institutional audits, programme accreditation, standards development, inspections, monitoring and evaluation, stakeholder engagement, and corporate governance. Despite resource limitations and capacity gaps, the Authority demonstrated resilience, professionalism and innovation in fulfilling its obligations under the *Higher Education Act of 2013.*

Major strides were achieved with the successful launch of the Higher Education Authority 2022 – 2026 Strategic Plan, which marked a key milestone in setting strategic direction for the Authority's regulatory and institutional priorities. Another notable publication was the 2023 State of Higher Education Report, which provided a comprehensive, evidence-based assessment of the higher education sector to inform policy formulation, planning, and regulatory decision-making.

A significant regulatory milestone was achieved with the issuance of the *Higher Education (General) Regulations, of 2024*, which operationalised the expanded mandate of the Authority under the *Higher Education (Amendment) Act of 2021*. Further progress was made through the development of quality assurance tools and regulatory instruments, including the advancement of the ZSG-QA and the publication of the Quality Assurance Handbook. In addition, the Authority amplified its engagement with HEIs and other stakeholders, strengthening partnerships essential for sector-wide improvement.

The financial year presented challenges, particularly financial constraints, transport limitations, and staffing shortages. Nevertheless, the HEA recorded measurable progress aligned with the 2022 to 2026 Strategic Plan, supported by strong internal collaboration and enhanced performance monitoring.

Regrettably, the year was marked by the profound loss of one staff member of the Authority, Mr Thabani Sakala, an Office Assistant who had served the Authority with dedication since 1 September, 2019.

As we reflect on 2024, we remain encouraged by the milestones achieved and mindful of the work that lies ahead. In 2025, the HEA will prioritise expanding regulatory oversight, strengthening institutional capacity, enhancing research and data systems, and increasing the visibility and responsiveness of quality assurance mechanisms. The Authority remains dedicated to ensuring that every learner in Zambia receives education that is credible, competitive, and globally recognised.

I extend my gratitude to the Ministry of Education for its continued policy guidance and support. I commend the commitment of the HEA Board, Management team, and dedicated staff whose professionalism and integrity continue to uphold the Authority's credibility. I also acknowledge the cooperation received from Higher Education Institutions (HEIs), whose adherence to quality and regulatory compliance remains indispensable to Zambia's educational transformation agenda.

It is with confidence and renewed determination that I present the HEA Annual Report for 2024.

Professor Kazhila C. Chinsembu

HIGHER EDUCATION AUTHORITY

"Ensuring Quality in Higher Education"

EXECUTIVE SUMMARY

This Annual Report presents the performance of the Higher Education Authority (HEA) during the year 2024, highlighting progress made in regulating, coordinating, and assuring quality in Zambia's higher education sector in line with the *Higher Education Act of 2013*, as amended in 2021.

The reporting year was characterised by heightened regulatory demands, growing sector complexity and persistent resource constraints. Despite these challenges, the Authority recorded strong institutional performance, guided by its Strategic Plan (2022–2026), which was officially launched during the year. The Strategic Plan provided a clear framework anchored on three strategic objectives: enhancing quality assurance systems; improving stakeholder engagement and communication; and strengthening institutional capacity, systems, and governance.

Under Strategic Objective 1, the Authority achieved 82.6 per cent performance. A total of 53 institutional audits, 18 inspections, and eight surveillance exercises were conducted, alongside the processing of all 31 institutional registration applications. As at 31 December 2024, the Authority had 213 registered and recognised higher education institutions. Programme accreditation remained robust, with 614 accreditation applications evaluated, 96 re-accreditations processed and 22 programmes accredited through programme audits. The Learning Programme Evaluators database was strengthened with 17 additional experts. The Authority also advanced the Zambia Standards and Guidelines for Quality Assurance, published the Quality Assurance Handbook, and completed the *2023 State of Higher Education, Report.* A major milestone was achieved with the issuance of the Higher Education (General) Regulations, 2024, strengthening the legal and regulatory framework governing higher education.

Strategic Objective 2 was marked by strengthened stakeholder engagement and enhanced public communication. Key highlights included hosting the Southern African Quality Assurance Network (SAQAN) Conference, conducting sector orientation workshops, and strengthening media presence through television, radio, and digital platforms. The Authority appeared before Parliamentary Committees on the Zambia Qualifications Authority (ZAQA) Amendment Bill and the National Health Research and Training Institute Bill, 2024, and signed a Memorandum of Understanding (MoU) with the Health Professions Council of Zambia (HPCZ). The Authority also received numerous courtesy calls with key stakeholders, including higher education institutions, professional bodies, student unions, and prospective investors, to promote regulatory compliance, strengthen collaboration, and address strategic sector priorities.

Strategic Objective 3 saw the Authority prioritise the strengthening of internal systems, governance, and institutional capacity. The appointment of Professor Kazhila C. Chinsembu as the Director-General in April 2024 provided renewed leadership and strategic direction. Performance management systems were strengthened and staff capacity was enhanced through targeted training. The Authority initiated an organisational structure review in collaboration with the Management Development Division of Cabinet Office. By December 2024, 31 positions were filled against an approved establishment of 40. Institutional effectiveness continued to be constrained by staffing gaps, limited ICT infrastructure, high office accommodation costs, and an ageing vehicle fleet.

Financial performance reflected constrained funding against expanding operational demands. Nevertheless, the Authority maintained prudent financial management and compliance, with audited financial statements prepared in accordance with statutory requirements.

Overall, the 2024 reporting year demonstrates the Authority's resilience, professionalism and sustained commitment to safeguarding quality, relevance and integrity in higher education. The report underscores the need for enhanced resource mobilisation, institutional capacity strengthening, and ICT modernisation to support expanded regulatory reach. The Authority remains firmly positioned as a key contributor to Zambia's human capital development and socio-economic transformation agenda.

ABOUT US

The Authority is a statutory body established under the *Higher Education Act of 2013,* as amended by the *Higher Education (Amendment) Act of 2021*, to provide external quality assurance for Higher Education Institutions (HEIs) in Zambia.

The Authority began its operations in 2015 and is governed by a Board with members drawn from Government, Civil Society and Professional Bodies.

Mandate

The Authority draws its mandate from the *Higher Education Act of 2013, and the Higher Education (Amendment) Act of 2021,* to develop and foster an innovative quality assurance system in higher education for a knowledge-based society. The HEA achieves this through providing for quality assurance and quality promotion in higher education; the establishment, governance and regulation of public HEIs; and, the registration and regulation of private HEIs.

Core Functions

In accordance with the *Higher Education Act of 2013,* the Authority performs the following core functions:

1. Advise the Minister on any aspect of higher education;
2. Develop and recommend policy on higher education, including the establishment of public higher education institutions and the registration of private higher education institutions;
3. Establish a coordinated higher education system which promotes corporate governance and provides for a programme based higher education;
4. Regulate higher education institutions and coordinate the development of higher education;
5. Promote quality assurance in higher education;
6. Audit the quality assurance mechanisms of higher education;
7. Restructure and transform higher education institutions and programmes to be responsive to the human resource, economic and development needs of the Republic;
8. In consultation with relevant professional institutions, set standards for higher education institutions;
9. Design and recommend an institutional quality assurance system for higher education institutions, and recommend to the Minister institutional quality assurance standards for:
    a. The establishment, standardisation and registration of higher education institutions, including standards of plant and equipment;
    b. The preparation and amendment of statutes;
    c. The development of curricula;
    d. Libraries, laboratories, workshops, and other facilities;
    e. Student transfers between academic programmes among higher education institutions; and
    f. classification of higher education institutions.
10. Promote cooperation among higher education institutions at national, regional, and international level and facilitate their linkages with industry; and,
11. Create a database of students studying in higher education institutions.

VISION

"A dynamic quality assurance body promoting internationally recognised Zambian higher education."

MISSION STATEMENT

"To promote standards of higher education in order to ensure knowledgeable, skilled and well-disposed internationally recognised graduates for enhanced human capital and accelerated national development."

CORE VALUES

a) **Commitment:**
Dedicate wholeheartedly to duty and service delivery.

b) **Confidentiality:**
Uphold trust by protecting privileged information from unauthorised access or disclosure.

c) **Courtesy:**
Treat all stakeholders with respect and politeness in every interaction.

d) **Honesty:**
Remain truthful and trustworthy in all dealings and decisions.

e) **Integrity:**
Place the Authority's interests above personal gain,with conduct of unwavering ethical standards.

f) **Teamwork:**
Collaborate and support one another, working in unity to achieve shared goals.

g) **Transparency:**
Act in a clear, open, and predictable manner to encourage participation and foster accountability.

HIGHER EDUCATION AUTHORITY

"Ensuring Quality in Higher Education"

The Permanent Secretary Administration, Ministry of Education Ms. Norian Muneku being led by HEA Acting Director-General, Dr Martin Mushumba to the launch of the Higher Education Authority Strategic Plan.

Launch of the Strategic Plan (2022–2026)

The Strategic Plan (2022–2026) was officially launched in the year under review alongside the 2022 State of Higher Education in Zambia Report. The launch was graced by the Permanent Secretary – Administration in the Ministry of Education, Ms Norian Muneku, who underscored the government's commitment to strategic, evidence-based planning in the higher education sector.

During the event, Acting Director-General, Dr Mushumba, emphasised the importance of aligning the Authority's strategic priorities with sector performance data and national higher education policy objectives. The launch of the Strategic Plan demonstrated the Authority's commitment to evidence-based regulation, transparency and continuous improvement in higher education.

The Strategic Plan provides a clear strategic framework to guide the Authority's regulatory, operational and institutional development. It is anchored on three strategic objectives, which form the basis of planning, implementation and performance reporting. The 3 strategic objectives are:

1. Enhance quality assurance systems.
2. Improve stakeholder relations.
3. Enhance institutional capacity and governance.

The Permanent Secretary Administration Ms. Muneku (C) pose for a group photography after the launch of the Strategic Plan.

HIGHER EDUCATION QUALITY ASSURANCE

In line with Strategic Objective 1: Enhancing quality assurance systems, the Authority continued to strengthen the higher education quality assurance framework aimed at promoting competitive higher education in Zambia. During the year under review, emphasis was placed on ensuring that HEIs operate in full compliance with approved standards and regulations to safeguard the quality, relevance and integrity of learning programmes.

Key interventions focused on the accreditation of learning programmes, institutional audits, inspections and ongoing surveillance, alongside the review and development of quality assurance standards and guidelines. These efforts were directed at improving adherence to regulatory requirements, strengthening institutional accountability and enhancing the delivery of high-quality learning programmes that are responsive to national development priorities and stakeholder expectations.

Institutional Audits, Inspections, and Surveillance

In 2024, institutional audits, inspections, and surveillance remained a cornerstone of the Authority's quality assurance framework. These regulatory interventions ensured that HEIs operated legally, complied with prescribed minimum standards, and continuously improved the quality of education delivery.

Regulatory Oversight Outcomes:

1. 53 institutional audits conducted;
2. 18 institutional inspections completed ;
3. 8 surveillance exercises undertaken ;
4. 31 institutional registration applications processed;
5. 4 institution re-classification; and
6. 3 de-registrations.

Institutional Audits

In the year under review, the Authority conducted 53 institutional audits against an annual target of 64. Despite financial constraints, the audits provided comprehensive assessments of institutional governance structures, academic delivery systems, infrastructure, staffing levels, and overall compliance with minimum standards across HEIs. These audits formed a critical basis for corrective actions, continuous improvement, and regulatory decision-making.

HEA Inspectorate Unit in one of the Skills Laboratory during Institutional audits at the University of Zambia. The Authority conducted the institutional audits from 2 to 5 December, 2024.

Inspections

In 2024, the Authority conducted 18 institutional inspections out of a target of 20. The inspections focused on verifying compliance with licensing conditions, programme delivery standards, and institutional capacity. Through these inspections, the Authority strengthened regulatory oversight and reinforced adherence to approved operational and academic requirements.

HEA Director- Quality Assurance, Acting Manager - Standards, Research and Institutional Audits, Mr Denny Nsokolo, and the Inspectorate Unit being led on a guided tour of a Skills Laboratory at the Copperbelt University. The Authority conducted the audit from 19 to 21 November, 2024.

Complementing these inspection activities, the Authority also ensured the efficient processing of applications for the registration of HEIs in 2024. All 31 applications for registration received in 2024 were processed, representing 100 per cent achievement against the annual target and demonstrating the Authority's commitment to timely and effective regulatory service delivery.

In addition to routine institutional inspections, the Authority conducted panel hearings for university colleges as part of the registration and regulatory assessment process. During the reporting period, panel hearings were held for the following institutions to evaluate their eligibility to operate as HEIs:

1. Bootstraps Christian University College: registration application was approved after inspection, the institution was advised to improve infrastructure then it would be inspected by management.
2. Manica University College: registration application was approved.
3. Lusaka South University College (LIAS): registration application was rejected.
4. Makeni University College of Nursing and Health Sciences: registration application was approved.

Classification

In the year under review, the Authority conducted four classification audits,. Despite financial constraints, the audits provided comprehensive assessments of institutional capacity, governance

HEA Management and Staff with representatives from Manica University College after the panel hearings at the Authority held on 15 May 2024.

structures, academic offerings, and compliance with prescribed classification criteria. These audits were essential for determining whether institutions operate as universities, university colleges, or institutions for specialised training, ensuring appropriate categorisation within Zambia's higher education system.

Deregistration

The Authority is empowered under the *Higher Education Act of 2013,* to deregister HEIs that fail to comply with prescribed standards, conditions of registration, or regulatory requirements. De-registration serves as a critical enforcement mechanism to safeguard the integrity of the higher education sector and protect students and the public from substandard institutions.

During the year under review, the Authority deregistered a total of three HEIs following comprehensive assessments that revealed persistent non-compliance with regulatory requirements. The de-registered institutions and the grounds for de-registration are summarised below:

Status of Registered Higher Education Institutions

As at 31 December 2024, the HEA had a total of 164 registered HEIs. These included public universities and private universities, private university colleges institutions for specialised training in Zambia. A comprehensive list of all registered institutions, categorised by type, is provided in Appendix 1.

Name of Institution	Type	Reason for De-registration
African Open University	University	Failed to recruit adequate qualified teaching and administrative staff, had inadequate teaching and learning facilities; ceased operations for more than six months
Central Africa University College	University College	Failed to operationalise the institution within six months of registration and failed to establish fixed premises for operation.
Twin Palm Leadership …..	University	Failed to recruit adequate qualified teaching and administrative staff, had inadequate teaching and learning facilities to support the learning programmes on offer.

Surveillance

In line with its mandate to curb the illegal provision of higher education, the Authority undertook surveillance activities in four provinces. A total of eight surveillance exercises were conducted.

The audits, inspections and surveillance activities conducted in 2024 enhanced regulatory compliance, curtailed illegal provision of higher education and reinforced public confidence in the integrity and credibility of Zambia's higher education sector.

Programme Accreditation

Programme accreditation and quality assurance remained a key pillar of the Authority's mandate in 2024. Through systematic evaluation, re-accreditation, and programme audits, the Authority safeguarded academic standards while promoting relevance, accountability and continuous improvement in programme delivery across HEIs.

Programme Quality Assurance Outputs:

1. 614 programme accreditation applications evaluated;
2. 96 re-accreditation applications processed;
3. 22 learning programmes accredited through programme audits; and
4. 17 learning programme evaluators added to the database.

During this period, HEA introduced accreditation window periods for all HELs in Zambia to submit learning programmes. The window periods were intended to ensure that all unaccredited learning programmes were identified and brought up to standard as expeditiously as possible.

The accreditation window periods also enabled HEA to manage the accreditation process more efficiently by prioritising applications submitted within the prescribed timeframes. This approach enhanced efficiency and eliminated delays and anxiety previously associated with the accreditation process.

The success of the 2024 accreditation window period can be assessed using quantitative and qualitative indicators. Quantitatively, the total number of accredited learning programmes increased to 1,696, reflecting improved compliance and uptake by HEIs and signalling effective programme regularisation. Qualitatively, success was further evidenced by a reduction in the number of non-accredited learning programmes offered after the window period, improved efficiency through shorter turnaround times for application reviews and decisions, and enhanced quality outcomes, as institutions addressed gaps identified during the review process and aligned their programmes with the prescribed minimum standards.

Programme Accreditation

During the period under review, the Authority evaluated 614 applications for the accreditation of learning programmes. The evaluations assessed programme relevance, curriculum design, staffing adequacy, learning resources, assessment methods, and alignment with national qualifications frameworks and regulatory requirements. The high volume of applications processed reflects the growing demand for accredited programmes and the Authority's commitment to timely and effectively regulate service delivery.

Programme Re-Accreditation

A total of 96 applications for re-accreditation were evaluated to ensure that existing programmes continued to meet prescribed standards. The re-accreditation process ensured programme relevance

and responsiveness to national development priorities, labour market needs, and evolving quality assurance requirements.

Programme Audits

The Authority conducted audits on learning programmes, resulting in the accreditation of 22 learning programmes during the year. These audits provided in-depth assessments of programme implementation and compliance, strengthening accountability and continuous quality improvement within HEIs.

Status of Accredited Programmes

In 2024, HEA had a total of 1,696 accredited learning programmes across registered HEIs in Zambia. These programmes included undergraduate, postgraduate, diploma, and certificate courses. A comprehensive list of all accredited programmes, categorised by level and institution, is provided in Appendix 2.

Strengthening the Expert Database for Quality Assurance

In 2024, the Authority undertook measures to strengthen its quality assurance systems through the expansion of its database of external experts. This intervention was informed by the increasing complexity of programme accreditation, institutional audits and inspections, and the need to ensure that regulatory decisions are supported by specialised, independent and technically sound expertise.

Accordingly, the Authority issued a Call for Expressions of Interest (EoI) for external experts on 10 July 2024, with applications closing on 15 August 2024. The call targeted highly qualified academics and professionals with demonstrable experience in higher education teaching, research, curriculum development, institutional governance and quality assurance.

The selection criteria emphasised high academic and professional standing, including strong research output, publication in reputable indexed journals, visibility on recognised scholarly platforms, and a sound understanding of the higher education, regulatory environment. The experts will support the Authority in the registration of private higher education institutions, programme accreditation, institutional audits, and physical inspections, thereby strengthening regulatory oversight and evidence-based decision-making.

Following the closure of the EoI, applications received were subjected to a screening and selection process. Seventeen additional experts in health-related subject area were incorporated into the database.

Overall, the programme accreditation and quality assurance activities undertaken in 2024 significantly contributed to maintaining academic standards, enhancing programme relevance, and reinforcing stakeholder confidence in the quality and credibility of higher education provision in Zambia.

Quality Assurance Standards and Research

During 2024, the Authority strengthened standards development, research, and quality assurance systems to support evidence-based regulation and continuous improvement in the higher education sector.

Research and Data Systems

To enhance data-driven regulation, the Authority updated and implemented institutional survey tools and finalised the collection and verification of 2023 institutional data. These initiatives strengthened the Authority's students database, institutions, and learning programmes, improving the accuracy,

reliability and usability of sector data for planning, monitoring and regulatory decision-making.

The Authority further advanced research and knowledge generation by completing the 2023 State of Higher Education Report in Zambia. This report was formally launched alongside the Higher Education Authority Strategic Plan, marking an important, milestone in strengthening sector analysis, evidence-based insights, and informed policy guidance.

Development of Quality Assurance Standards

Significant progress was recorded in the development of quality assurance standards and reference materials. The ZSG-QA were reviewed and prepared for publication, while the standards and guidelines for Institutes were developed and incorporated into the revised national quality assurance framework. In addition, the Quality Assurance Handbook was finalised and published, providing a comprehensive guide for institutional compliance and quality assurance processes.

Operationalisation of the Higher Education (General) Regulations, 2024

During the reporting period, the Authority recorded a major regulatory milestone with the operationalisation of the amended Higher Education Act through the issuance of the Higher Education (General) Regulations, 2024. Since the amendment of the *Higher Education Act of 2021,* the absence of subsidiary legislation had limited the full implementation of the Authority's expanded mandate.

To address this gap, the Authority, in collaboration with the Ministry of Education and the Ministry of Justice, developed a draft Statutory Instrument (SI) to operationalise the amended Act. The draft SI was submitted to the Minister of Education for consideration.

Subsequently, the Minister of Education, accompanied by HEA Director-General and Director – University Education under the Ministry of Education, presented the draft SI to the 15th Cabinet Meeting held on Tuesday, 30 July 2024. Later, Cabinet approved the issuance of the SI.

Additionally, the Higher Education (General) Regulations, 2024 were signed by the Minister of Education, Mr Douglas Syakalima, MP., on 29 August 2024. The Regulations bring into effect revised regulatory provisions that reflect the Authority's expanded mandate as provided under the *Higher Education (Amendment) Act of 2021*. These Regulations introduce revised fees, which are expected to contribute to the Authority's internally generated funds, thereby supporting the sustainability of regulatory operations.

The issuance of the regulations significantly strengthened the legal and regulatory framework governing higher education, enhanced enforceability of quality assurance standards and provided a clearer basis for compliance, accreditation, audits, and inspections across the sector.

In line with Strategic Objective 2: Improving stakeholder relations, the Authority prioritised initiatives aimed at strengthening stakeholder confidence, enhancing collaboration, and improving compliance with regulatory requirements across the higher education sector. During the year under review, emphasis was placed on fostering transparent, inclusive, and structured engagement with key stakeholders to promote a shared understanding of regulatory expectations and quality assurance processes.

The Authority advanced effective communication and information dissemination to enhance public trust in Zambia's higher education system, recognising that strong stakeholder engagement is fundamental to effective quality assurance. These efforts were underpinned by dialogue, transparency,

consistent messaging, and improved access to public information, contributing to informed and more satisfied stakeholders and reinforcing collective ownership of quality assurance outcomes.

Minister of Education Tours HEA Premises

In line with efforts to strengthen stakeholder engagement and enhance collaboration with key government authorities, the HEA continued to engage with policy leadership throughtout the reporting period.

The Honourable Minister of Education, Mr Douglas Munsaka Syakalima, MP., toured the offices of the Authority at the Engineering House. He was received by the Acting Director-General, Dr Martin Mushumba.

During the tour, the Minister reaffirmed the government's commitment to safeguard the quality higher education and encouraged the Authority to execute its mandate with integrity, professionalism, and impartiality, ensuring that standards were upheld without compromise or favour.

Digital Media Engagement

During the reporting period, the Authority utilised digital media platforms, such as Facebook, Instagram and LinkedIn for stakeholder engagement, public communication, and dissemination of regulatory information.

Facebook remained the Authority's primary digital engagement platform. The Authority Facebook Page recorded overall growth in its follower base, reaching approximately 28,000 followers by the end of the period. While audience growth was achieved, content reach and page visits fluctuated, reflecting varying levels of audience interaction across the year. At peak periods, Facebook content reached over 39,000 accounts, while page visits exceeded 20,000, indicating strong stakeholder interest in HEA's information and activities.

INSTITUTIONAL CAPACITY AND GOVERNANCE

In line with Strategic Objective 3, which seeks to enhance institutional capacity and strengthen governance systems, during the reporting period, the Authority focused on improving internal efficiency, financial sustainability, and service delivery. Key, interventions were directed at strengthening financial management and audit controls, optimising resource utilisation, automating and integrating internal processes, and enhancing risk management practices. The efforts were complemented by continued investment in systems development, stakeholder engagement, and governance frameworks. These interventions aimed at improving accountability, operational effectiveness, and the overall regulation of the higher education sector.

HEA Director-General, Professor Kazhila C. Chinsembu.

Director-General 's Appointment

On 22 April 2024, Professor Kazhila C. Chinsembu was appointed as HEA's Director-General. The appointment, was made in accordance with Section 5.1.7 of the Higher Education Authority Terms and Conditions of Service Policy on recruitment process and the provisions of the *Higher Education Act of 2013, Part II Section 8 (1,)* which states that the Board, with the approval of the Minister shall appoint the Director-General.

Professor Chinsembu is a distinguished academic and scholar with over twenty eight years of continuous service in higher education in Zambia and the sub-region. He holds a Doctorate of Philosophy in Science Education (PhD), a Master of Science in Tropical Molecular Biology (MSc), and a Bachelor of Science in Education (BSc. Ed), majoring in Biology with a minor in Chemistry. In addition, he has completed several specialised short courses in quality assurance and learning programme accreditation, including programmes offered by the Centre for Quality Assurance Management (CEQUAM) in collaboration with the National Council for Higher Education (NCHE) and the University of Namibia.

Prior to joining HEA, Professor Chinsembu served as Professor of Molecular Biology and Drug Discovery at the University of Namibia. He has also held academic and leadership positions at the University of Zambia and the University of Lusaka (UNILUS) and served as a visiting Professor at the University of Kwa-Zulu Natal in South Africa. His contributions extend to serving as an external examiner for several universities across the region and as a member of numerous Senate and academic committees. Professor Chinsembu brings extensive expertise in academic leadership, curriculum development, institutional quality assurance, programme accreditation and university governance. His experience spans teaching, research and administration in both public and private higher education institutions, locally, regionally and internationally.

The Board of HEA is confident that Professor Chinsembu's leadership, guided by this vision, will strengthen the Authority's regulatory and oversight functions, enhance quality assurance in higher education,

and contribute to the development of a competitive and fit-for-purpose higher education sector aligned with Zambia's national development priorities.

The Director-General meets the Minister of Education

The newly appointed Director-General of the Authority, Professor Chinsembu, met with Honourable Minister of Education, Douglas Syakalima MP., on 22 April 2024. The Director-General was formally introduced to the Minister by the Chairperson of the HEA Board, Professor Levy Siaminwe.

Human Resources and Administration

In 2024, the Authority focused on workforce management, staff welfare, administrative efficiency, and organisational governance. This was key in supporting programme delivery, inspections, accreditation activities, office accommodation, transport coordination and general administrative support, and stakeholder engagement across the country. Operations were, however, undertaken within a constrained human and logistical resource environment, which continued to place pressure on service delivery across the institution.

Capacity and Establishment

Throughout 2024, the Authority continued to operate with sub-optimal staffing levels, a challenge that was consistently highlighted by Management. The limited number of staff relative to the Authority's expanding regulatory mandate resulted in increased workloads, multitasking, and operational pressure across departments, particularly within Quality Assurance, Administration and Finance.

To strengthen institutional capacity and address long-standing staffing gaps, the Authority filled the positions of the Director-General, Personal Assistant to the Director-General, and Documentation and Registry Officer.

Mrs Getrude Mweetwa Mubika - Personal Assistant to the Director-General (Appointed: 8 January 2024)

Mrs Betty Mwiinga Lungu - Documentation and Registry Officer (Appointed: 8 January 2024)

Organisational Structure Review and Institutional Realignment

The Authority initiated a comprehensive review of its organisational structure in response to the expanded mandate arising from the *Higher Education (Amendment) Act of 2021*. The priorities of the HEA Strategic Plan (2022–2026) and Government Policy on Decentralisation aimed at bringing services closer to the people.

Recognising the need to enhance functional efficiency, effectiveness and cost-effectiveness, the Ministry of Education requested the Management Development Division (MDD) of the Cabinet Office to undertake a review of the Authority's organisational structure. In response, MDD presented a technical proposal and constituted a joint technical committee comprising officials from HEA and MDD to guide the restructuring exercise.

The review process was guided by clearly defined Terms of Reference (ToR), including redesigning the organisational structure to ensure optimal staffing levels, appropriate grading and alignment with the Authority's core mandate, and clarifying departmental, sectional and unit functions to strengthen accountability and role clarity.

A consultative Organisational Structure Review Workshop was held at HEA from 15 to 27 July 2024. The workshop adopted a participatory approach, with the consulting team facilitating discussions, while HEA officers and key staff actively contributed to identifying departments, sections, units, functions, and staffing requirements. The process also enhanced internal understanding of organisational design principles and promoted collective ownership of proposed reforms.

Key findings from the review included the expanded scope of the Authority's oversight responsibilities, limited provincial presence, funding constraints, the need to realign functional areas within corporate services and organisational culture challenges, affecting staff morale. Based on these findings, recommendations were developed to strengthen the Authority's operational and structural framework, improve systems and enhance institutional performance.

Capacity Building and Staff Development

Staff capacity was strengthened through targeted training programmes, workshops and on-the-job mentoring, with particular emphasis on:

1. Quality assurance and regulatory processes;
2. ICT systems and digital tools;
3. Financial management and compliance; and
4. Institutional governance and reporting.

These interventions supported staff adaptability and helped mitigate the effects of limited human resource capacity.

Human Resource Developments

Separation

The Authority experienced staff movement of the Legal Counsel and Board Secretary, Mrs Tafuna Mumba Phiri on 6 October 2024 who resiged.

Death

During the year under review, the Authority experienced a death of a staff member Mr Thabani Sakala, Office Assistant, who died on 30 September 2024.

Staff Establishment

By the end of December 2024, staff turnover and recruitment were as follows:

1. Staff establishment 40 ;
2. 31 positions filled;
3. 9 vacant positions;
4. 1 resignation; and
5. 1 death.

Vacancies affected key positions including:

1. Manager Finance;
2. Manager HR & Administration;
3. Manager Standards, Research and Institutional Audits;
4. Legal Counsel and Board Secretary.

Office Accommodation

Office accommodation continued to present a significant administrative and financial challenge in 2024. The Authority operated from leased premises, with high rental costs placing pressure on the operational budget. In addition, ongoing partitioning and reconfiguration of office space to accommodate functional needs resulted in unplanned expenditure and recurrent cost variances.

During the year under review, Management engaged relevant government stakeholders regarding long-term solutions to office accommodation challenges. Progress was made in compiling and submitting requirements for a purpose-built office facility, in collaboration with sister institutions, as a cost-saving and sustainability measure.

Transport and Fleet

Transport constraints remained one of the most critical administrative challenges affecting the Authority's operations in 2024. The institutional fleet was largely aged and prone to frequent breakdowns, significantly limiting the Authority's ability to conduct audits, inspections, and surveillance activities as planned.

Management noted that:

1. Only two vehicles were consistently in good running condition during the year.
2. Several vehicles were decommissioned or recommended for removal from the fleet due to high maintenance costs.
3. Increased transport and maintenance costs contributed to adverse budget variances.

Annual Planning

In compliance with statutory requirements, the Authority developed its 2024 Procurement Plan under Section 57(2) of the *Zambia Public Procurement Act No. 8 of 2020*. The plan was formulated to strengthen operational efficiency, ensure transparency and accountability, and align procurement processes with the Authority's institutional objectives.

Information and Communication Technology (ICT)

The Authority continued to strengthen its regulatory mandate by improving digital systems, information management and enhancing the use of technology to promote efficient service delivery and sound institutional governance in 2024.

ICT Policy Development

During the year under review, the Authority developed a draft ICT Policy to provide a structured framework for ICT operations, security management, and systems development. The draft Policy was enhanced through engagement with external stakeholders, including SMART Zambia Institute, Zambia Information and Communication Technology Authority (ZICTA), and the Ministry of Technology and Science, to ensure alignment with national and sectoral objectives. The ICT Policy was approved by Management Committee and was targeted for full implementation in 2025.

National Student Database Development

A key strategic priority was the development of the National Student Database in collaboration with SMART Zambia Institute. The project aimed at establishing a comprehensive database of students in HEIs and their learning programmes to support data-driven regulation, planning and policy formulation. The National Student, Database project roadmap was updated to reflect new milestones and deliverables, with full implementation scheduled to be done in 2025.

Cybersecurity and Data Protection

The Authority achieved the following:

1. 100 per cent compliance in quarterly checks for malicious software,
2. Renewal of all Internet Security and Anti-Virus licences;
3. Zero security breaches or intrusions reported throughout the year; and
4. Successful engagement with ZICTA for an ICT Audit based on the ISO/IEC 27001:2022 standard.

Technical Support and Business Continuity

The Authority provided prompt and need-based technical support to all staff, achieving 100 per cent support coverage within the stipulated two-day response time throughout the year. Support activities included maintenance of computers, printers, network infrastructure, and end-user assistance for staff.

The Authority conducted daily backup activities, throughout the year, to ensure data integrity and availability, and business continuity. A draft Business Continuity Plan was developed during the reporting period to strengthen the Authority's resilience against potential ICT disruptions. ZICTA conducted an ICT Audit based on the ISO/IEC 27001:2022 standard, led by the Manager Cyber Risk and Resilience.

Website Management

The Authority maintained regular monthly updates to its website to keep stakeholders informed of regulatory developments, institutional activities and quality assurance initiatives. During the year, over six updates were published on the Authority's website.

Network Infrastructure and Internet Connectivity

Monthly Local Area Network (LAN) maintenance was undertaken to ensure stable and reliable internal access to ICT resources. Works for the installation of a new LAN commenced during the year, which was expected to be completed in 2025. The LAN extension will enhance internal connectivity and support growing digital workloads.

The Authority also maintained a stable and reliable internet service with a subscribed speed exceeding 20 Mbps. No outages were experienced throughout the year, ensuring seamless access to digital resources and efficient communication across the organisation.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF HIGHER EDUCATION AUTHORITY

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Higher Education Authority as set out on pages 7 to 18, which comprise the statement of financial position as at 31 December 2024, and the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Higher Education Authority as at 31 December 2024 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Higher Education Act of Zambia.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code) and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The directors are responsible for the other information. The other information comprises the Directors' Report as required by the Higher Education Act of Zambia, the statement of directors' responsibilities in respect of the preparation of the financial statements and the unaudited detailed operating statement. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the requirements of the Higher Education Act of Zambia, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Authority or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the authority to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory requirements

In accordance with the provisions of the Higher Education Act of Zambia ("the Act"), we report that, in our opinion,

- There is no relationship, interest or debt we have with the Authority; and

- There was no serious breaches of corporate governance principles or practices by the Directors. In the absence of the Act specifying the criteria for purposes of reporting on serious breaches of corporate governance principles or practices by the Directors, as required by corporate governance, we express our opinion based on the corporate governance provisions of the Act.

Higher Education Authority

Notes to the financial statements

for the year ended 31 December 2024

1. Basis of Accounting and Preparation of Financial Statements

The financial statements have been prepared on the accruals basis and in accordance with International Financial Reporting Standards and comply with requirements of the Higher Education Act. They have been prepared under the historical cost convention. The financial statements are presented in Zambia Kwacha except where otherwise indicated.

2. Summary of Significant Accounting Policies

2.1 Accounting Estimates and Judgement

The Authority's Board makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

a) Going Concern

The financial statements have been prepared on the going concern basis, which assumes that the Authority will continue in operational existence for the foreseeable future.

b) Provisions

The provisions recorded in these financial statements are the best estimates of the consideration that will be required to settle present obligations at the statement of financial position date, taking into account the risk and uncertainty surrounding the obligations.

c) Residual Values and Useful Lives of Property, Plant and Equipment

Residual values and useful lives of equipment, furniture, fittings and vehicles are based on current estimates of the value of these assets at the end of their useful lives. The estimated residual values have been determined by the Directors based on their knowledge of the industry.

d) Impairment of Trade Receivables

The Authority accounts for impairment losses for financial assets with a forward-looking expected credit loss (ECL) approach. IFRS 9 requires the Authority to recognize an allowance for ECLs for all financial assets not held at fair value through profit and loss and contract assets.

e) Fair Value Measurement and the Valuation Process

In determining the fair values of assets and liabilities, the Authority uses available market-observable data. Where such data is unavailable, the Authority employs the use of financial models or independent third-party valuers to perform the valuation or to provide inputs for the model.

2.2 Basis of Financial Statements Preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Authority's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.1.

2.3 Financial Instruments

a) Financial Assets - Initial Recognition and Measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Authority's business model for managing them.

b) Financial Liabilities - Initial Recognition and Measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

2.4 Interest Cost

Interest is recognized on the time proportion basis, taking account of the principal debt outstanding and the effective rate over the period to maturity.

2.5 Property, Plant and Equipment

Property, plant and equipment are stated in the statement of financial position at cost or valuation less accumulated depreciation and any accumulated impairment losses. Depreciation on property, plant and equipment is provided on a straight line basis to write off the gross book value less the expected residual value of the various assets over the period of their expected useful lives as follows:

Asset Category	Rate Per Annum
Furniture, Fittings and Equipment	20%
Motor Vehicles	25%
Office Equipment and Accessories	20%
Computer Equipment	20%

2.7 Retirement Benefit Obligation

The Authority and its employees contribute to the National Pension Scheme Authority (NAPSA), which is a defined contribution scheme. The estimated monetary liability for employees' accrued leave at the statement of financial position date is recognized as an expense.

2.8 Income

Income recognition for the Authority represents the following:

(i) Government Grants:

Government grant is recognized in the income statement when it is actually received and the amount received can be measured with certainty. Grant income is recognised in the income statement over the period necessary to match with related cost that it is intended to compensate.

(ii) Income from Rendering Services:

This comprises the value of services rendered in respect of accreditation, registration, validation and evaluation of qualifications. This income is recognised in the income statement upon satisfactory execution of the performance obligations.

(iii) Other Income:

This comprises income from securities and other sundry sources. This income is recognised in the income statement when it is actually received and the amount can be ascertained and measured with reasonable certainty.

2.9 Trade and Other Receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are measured at amortized cost. Loans and receivables are measured at amortized cost using the effective interest method less any impairment.

2.10 Cash and Bank Balances

Cash and cash equivalents include cash in hand, deposit held at call with banks, other short term highly liquid investments with original maturities of three months or less, and bank overdrafts.

2.11 Employee Benefits

The Authority operates a defined contribution retirement benefit scheme for all employees. The Authority and all its employees contribute to the National Pension Scheme Authority (NAPSA). The Higher Education Authority is a statutory body exempt from income tax.

2.12 Foreign Currencies

The financial statements of the Authority are presented in Zambian Kwacha (ZMW), which is the functional currency and the presentation currency for the financial statements. Exchange differences are recognized in the statement of comprehensive income in the year in which they arise.

2.13 Trade and Other Payables

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.14 Financial Risk Management Objectives and Policies

The Authority's activities expose it to a variety of financial risks: Market risk (including currency risk, fair value interest rate risk, cash flow interest rate and price risk), credit risk and liquidity risk. The Authority's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on its financial performance.
